according to Bradstreet's, decreased for the week \$244,000 bush., but there was an increase in Europe, making the total decrease in the world 2,644,000 horthwestern interior elevators in the gradstreet on the world 2,644,000. Northwestern interior elevators lost 700,000 bush, and private elevators in Chicago 224,000. But the rise was mostly obliterated before the close on profit taking. The cash trade was quiet and the West sold to some extent. The Illinois State report says that in general spring wheat is starting nicely and that the outlook continues favorable, while the condition on March 1 was 76. Corn was firmer early in the day owing to the cold weather West, which caused covering by nervous shorts. Later the market reacted, closing irregular. The cash trade was dull and there was an absence of support. The cables were 15 to \$4d. lower. There was no trading in oats here.

Realizing and a lack of support caused a decline in cotton. Besides some did not exactly like to see that the total brought into sight thus far is 9.343.907 bales, figures already very close to the minimum estimates on the crop by some prominent bulls. There was also some out of town selling including more or less, it is said, by Chicago. The Houston and New Orleans estimates were light and not a few commission houses had orders to sell in expectation that such estimates would cause a rise. Trade reports were favorable, spot markets were generally steady and prominent interests are still identified with the long side. Florence, Ala.—There are 75 bales of cotton in this vicinity or about the same as last year. Fort Deposit, Ala.—Find that hardly any cotton remains in the hands of producers in this section. Doubt whether the amount wet to be marketed as 5 per cent. of the amount marketed after this time last year." Gadden, Tenn.—Have never known so little on hand as at present. Big receipts, disappointing cables, an absence of outside interest and local and foreign selling caused lower prices for coffee, but as the trading was intensely dull the decline was slight.
